OUR KEY TASK IS TO HELP YOU FOCUS ON BUSINESS DEVELOPMENT

OUTSTAFFING

Outstaffing is an effective tool of personnel management and optimization of employee costs.

The service is especially relevant for companies with from 10 to several thousand employees. It allows you to easily manage your staff, quickly increase the number of employees and, most importantly, optimize staffing costs by up to 40%-50%.

NEXT STEPS TO A SUCCESSFUL COLLABORATION:

1 Step. Approval of all the details

**2 Step. Preparation of documents, approval from both
sides**

3 Step. Start of work

MTC - WORLD-CLASS WEBSITE DEVELOPMENT AND DESIGN

The Challenge:

Web Design Scotland from MTC, a growing web design and development agency, faced the challenge of meeting the growing demand for its services while maintaining high quality standards. However, the company was having trouble finding qualified people locally, and outsourcing proved too expensive and unreliable.

Solution:

MTC approached us to hire IT professionals to work exclusively on their projects. We worked closely with MTC to understand their specific needs and provided them with a team of experienced developers based in Ukraine.

MTC - WORLD-CLASS WEBSITE DEVELOPMENT AND DESIGN

The result:

Thanks to AniArt online, MTC was able to deliver high-quality projects to its clients on time and on budget. Our staff easily integrated into the MTC team, providing it with the necessary knowledge and resources to expand its range of services and attract new clients. Specifically, our collaboration has resulted in a reduction of expenses by 15%, a boost in efficiency by 30%, and a significant increase in overall morale by 100%. These results demonstrate our commitment to delivering high-quality services and providing value to our clients.

The client is pleased with our services and the ongoing support we provide, including training, project management and personnel management. MTC has been able to scale its business, increase revenue, and achieve long-term success.
